

Safeserve managed email services

IGNORING YOUR PRIME MEANS OF COMMUNICATION?

- Spam and virus intrusions cost businesses £billions each year
 - Nearly a third of viruses go undetected
 - Prevent your data being at risk

WE'LL TAKE CARE OF YOU

Sophisticated multi-layered virus and spam protection

All incoming and outgoing email archived

Full legal compliance

For your peace of mind

IT'S WHAT WE DO

Email has become the most important communication tool for business. It has also become a significant operational, legal and financial problem with potentially devastating financial consequences

why

- Spam, malware and virus intrusions cost firms billions each year in clean-ups, wasted time, and unnecessary bandwidth.
- Both large organisations and small companies cannot keep up with increasingly sophisticated spam campaigns, phishing attempts and time-wasting or dangerous junk emails.
- There are significant legal penalties for regulatory infringements involving legitimate email traffic.

what

- Safeserve's managed email service delivers sophisticated multi-layered protection against viruses and 99.8% protection against spam.
- Ten year email archiving with easy search and retrieval of incoming and outgoing mail ensures regulatory compliance and assists legal discovery.
- Staff are free to do their jobs and your network only uses the bandwidth needed for legitimate email traffic.
- Eliminates the need for in-house management and storage capacity.
- Our unique SecureMail service provides real and effective security.

how

- We listen to your requirements and tailor the solution to your organisation's individual needs.
- No additional hardware, software or training is required.
- Compatible with all email servers.
- SMTP delivery direct to and from corporate servers, with optional TLS security.
- Email continuity assured with Safeserve's secondary mail system providing POP, IMAP, Webmail and Smartphone access.
- Integrates with Safeserve SecureMail service for complete privacy and confidentiality.
